

Exhibit 2B Reserve Study

Item 1:

Provide a general description of the actuarial methodologies used to determine and monitor carried loss and loss adjustment expense reserves for the medical malpractice business written, including frequency of reviews.

Response to Item 1:

Loss and loss adjustment expense reserves for medical malpractice are reviewed on a quarterly basis by the company's chief actuary who is qualified actuary (FCAS, MAAA). Loss and allocated loss adjustment expense reserves are reviewed by state and line of coverage, producing 20 different reserve categories. An example of a reserve category is Illinois – Claims Made. Within each reserve category, indemnity losses are analyzed on a gross and capped basis (e.g. \$500,000, \$1,000,000) to facilitate analysis of severity trend and application of reinsurance terms. Various methods are used to project ultimate losses at these levels, including paid and reported development, Bornhuetter-Ferguson, and counts time severity. Other methods may be employed to adjust for operational and environmental effects, such as the Berquist-Sherman method that adjusts for case reserve strengthening. Ultimate losses and ALAE are selected based on inspection of the method estimates and evaluated for reasonableness using measures of severity, frequency, and historical reserve development. Unallocated loss adjustment expense (ULAE) reserves are also reviewed quarterly by line of coverage (claims made vs. occurrence) and projected based on the traditional paid ULAE to paid loss method.

Item 2:

Discuss the adequacy of medical malpractice loss and loss adjustment expense reserves as of the most recent year-end and identify and describe any material changes in the past five years in amounts of carried reserves and in reserving methods. If a material unfavorable trend exists, indicate what actions were taken to address the issue. Identify the materiality standard used to respond to this question and provide the basis for this standard.

Response to Item 2:

Discussion of adequacy of loss and loss adjustment expense reserves as of December 31, 2008:

The company records reserves for medical malpractice loss and loss adjustment reserves based on management's review and discussion of the internal actuarial analysis as described above. In its selection of a "best estimate," management considers not only the quantitative indications but also current pricing and underwriting initiatives, an evaluation of reinsurance costs and retention levels, the claims reserving practices and philosophy, and other operational and environmental effects on reserves.

As required by insurance regulatory authorities, we receive an annual statement of opinion by an independent consulting actuary concerning the adequacy of our reserves. As of December 31, 2008, the opining actuary stated that our reserves made a reasonable provision for all unpaid losses and loss adjustment expenses under the terms of American Physicians' contracts and agreements. Further, based on the materiality standard set by the opining actuary, the opining actuary states that the potential risks and uncertainties that could bear on American Physicians' reserve development would not reasonably be expected to contribute to material adverse deviation of American Physicians' carried loss and loss adjustment expense reserves. For more information regarding the opining actuary's conclusions, please see the 2008 Statement of Actuarial Opinion for American Physicians Assurance Corporation.

Material changes in the past five years in amounts of carried reserves: The following table shows the change in loss and loss adjustment expense reserves for American Physicians over the past five years:

Year Ended December 31	Net Loss and Loss Adjustment Expense Reserves	% Change in Reserves from Prior Year
2008	527,015,642	1.6%
2007	518,739,921	-3.6%
2006	538,388,950	2.1%
2005	527,293,238	1.4%
2004	519,997,506	

There have been no material changes in loss and loss adjustment expense reserves since 2004. We deemed any change greater than 5% of reserves to be material.

Material changes in the past five years in reserving methods: There have been no material changes in the company's reserving methods over the past five years.

A note about the volatility of medical malpractice reserves: Due to the long-tailed nature of the medical professional liability line of insurance, changes in the actuarially projected ultimate loss severity can have an even greater impact on the balance of recorded reserves than with most other property and casualty insurance lines. While we believe that our estimate for ultimate projected losses are adequate based on our open and reported claim counts, there can be no assurance that additional significant reserve enhancements will not be necessary in the future given the many variables inherent in such estimates and the extended period of time that it can take for claim patterns to emerge.

Item 3:

Compare company trends to industry trends, with regards to the medical malpractice line of business and include information about the specific business written by the company and, if necessary, reasons why company trends are different from the industry.

Response to Item 3:

Due to the proximity to year end, many industry analyses have yet to be completed using data through December 31, 2008. As a result, we created our own industry benchmark using Schedule P data from insurers who focus primarily on medical practitioners (physicians, surgeons, other health care professionals). Two companies that write primarily medical practitioners were excluded, MLMIC and PRI, because of their size and influence on the rest of the companies included in the industry group. The selected benchmark is not a commonly accepted or reported benchmark but may be a close proxy to PIAA member companies.

Industry trends are difficult to determine as an appropriate benchmark against American Physicians due to the varying nature of medical professional liability business by state and health care practitioner/facility. Further complicating benchmarking and trend analysis are differences between companies in their underwriting and claims philosophies.

The American Physicians (AP) and benchmark data are pulled from the 2008 Schedule P, Part 1F, Section 2 – Medical Malpractice Claims Made. To avoid differences in reinsurance programs, the measures were calculated on a direct and assumed basis. The tables below show five year and ten year trends for the industry benchmark and AP, as well as a comparison of industry and AP statistics by report year.

Report Year	Frequency Reported Claims per Earned Premium			Ultimate LLAE Ratio Incurred LLAE / Earned Premium		
	Industry	AP	AP vs. Industry	Industry	AP	AP vs. Industry
1999	0.017	0.020	17.2%	115%	120%	4.6%
2000	0.018	0.021	15.0%	125%	136%	9.1%
2001	0.017	0.022	32.2%	123%	163%	31.8%
2002	0.013	0.016	21.0%	99%	118%	18.7%
2003	0.010	0.012	12.3%	81%	88%	9.8%
2004	0.007	0.008	3.3%	60%	67%	11.8%
2005	0.007	0.006	-4.0%	61%	71%	17.8%
2006	0.006	0.005	-12.4%	64%	61%	-4.4%
2007	0.006	0.006	-5.5%	71%	66%	-6.8%
2008	0.006	0.005	-8.5%	79%	67%	-15.2%
5 Yr Trend	-6.1%	-8.5%		7.1%	-1.0%	
10 Yr Trend	-14.0%	-17.3%		-7.3%	-9.8%	

Report Year	Paid LLAE Severity Paid LLAE / Closed Claims			Ultimate LLAE Severity Incurred LLAE / Reported Claims		
	Industry	AP	AP vs. Industry	Industry	AP	AP vs. Industry
1998	67,529	60,129	-11.0%	69,071	61,600	-10.8%
1999	66,743	61,558	-7.8%	69,234	65,699	-5.1%
2000	70,602	66,019	-6.5%	74,673	74,432	-0.3%
2001	67,270	60,550	-10.0%	73,960	72,556	-1.9%
2002	66,920	52,296	-21.9%	77,565	75,795	-2.3%
2003	62,131	47,498	-23.6%	80,583	87,196	8.2%
2004	60,381	44,447	-26.4%	91,279	111,983	22.7%
2005	54,198	38,458	-29.0%	107,024	116,811	9.1%
2006	44,634	20,989	-53.0%	119,983	118,308	-1.4%
2007	34,341	16,892	-50.8%	135,789	125,976	-7.2%
5 Yr Trend	na	na		14.1%	8.2%	
10 Yr Trend	na	na		7.8%	9.0%	

Because Schedule P data was used, it is difficult to analyze and investigate differences in trends due to significant operational changes beginning in 2002 and changes in the mix of business by state within AP and the industry. Descriptions of the operational changes can be found in responses to the Surplus Study items. Generally speaking, company trends are relatively consistent with industry trends with the exception of paid severity. Paid severity variation can be explained by a number of factors, most notably geographic and limit distributional differences. American Physicians experience is influenced by states where policy limits are generally lower than average.

Exhibit 2A – Surplus Study

Item 1:

Provide a general discussion regarding the adequacy of surplus reported on Annual Statement, page 3 (Liabilities, Surplus and Other Funds), line 35, Surplus as regards policyholders, as of the last year-end.

Response to Item 1:

American Physicians' surplus has becoming increasingly adequate over the last five years as indicated by the amounts and ratios in the table below.

	<u>2008</u>	<u>2007</u>	<u>2006</u>	<u>2005</u>	<u>2004</u>
Net loss and LAE reserves	527,015,642	518,739,921	538,388,950	527,293,238	519,997,506
Net written premiums (NWP)	120,123,819	130,802,344	146,834,977	156,258,752	181,221,529
Capital and surplus	194,298,325	210,790,279	233,933,834	225,685,927	200,080,160
Reserves/surplus ratio	2.71	2.46	2.30	2.34	2.60
NWP/surplus ratio	0.62	0.62	0.63	0.69	0.91
Total adjusted capital/RBC	4.38	4.64	5.08	5.05	4.67

The reasons for the improved surplus adequacy are primarily the result of improved underwriting results, as shown in the table below, offset by shareholder dividends to APCapital to fund holding company initiatives such as share repurchases. The improved underwriting results have been achieved through more disciplined underwriting practices and enhanced claim handling initiatives relative to our medical malpractice line of business. Changes in underwriting and claims handling practices began in 2002. However, we did not really begin to see the benefits until sometime in 2004. In addition, we took double digit rate increases in most markets in 2003, 2004 and 2005, and exited certain poor performing medical malpractice markets, such as Florida, discontinued writing occurrence based policies in select markets and lowered policy limits in virtually all jurisdictions. In late 2003, we also announced our exit from the workers' compensation and health insurance lines of business. The last policies related to these exited lines of business expired on June 30, 2005.

	<u>2008</u>	<u>2007</u>	<u>2006</u>	<u>2005</u>	<u>2004</u>
Underwriting gain/(loss)	32,046,511	41,758,484	18,931,246	3,897,761	(8,341,434)
Net income/(loss)	47,986,747	63,106,799	52,615,687	44,264,335	26,376,059

Item 2:

Identify and describe any material events or known material trends, favorable or unfavorable, in the insurer's surplus account in the past five years. This description should include any significant changes in the surplus ratios shown on Exhibit A. If a material unfavorable trend exists, indicate the courses of remedial actions already taken or that are available to the insurer and the effects or potential effects of each. Identify the materiality standard used to respond to this item and provide the basis for this standard.

Response to Item 2:

The only significant items affecting the changes in surplus are (1) net income and (2) shareholder dividends. American Physicians has generated both favorable underwriting and investment results during the last several years. Cumulative net income from 2004 to 2008 was \$235 million. As operating results have improved, American Physicians has elected to issue several ordinary dividend payments to its parent company, APCapital, who in turn has used the funds to repurchase shares of its outstanding common stock. This has been deemed by management to be the best use of these funds in light of American Physicians excellent financial position and limited premium growth opportunities. From 2004 to 2007, American Physicians paid \$146.5 million in dividends to APCapital. In 2008, due to the continued profitability of American Physicians, dividends of \$63.0 million were paid to APCapital. Despite the dividend payments, the premium-to-surplus ratios have improved from 0.91 in 2004 to 0.62 in 2008.

Company Defined Items

Item#1:

County is defined as the premium county, the county in which the premium was generated. This is consistent with our ratemaking methodology. No changes have been made to premium county definitions over the past 10 years.

Item#2:

Claims practices have not changed in past 10 years, but both internal and external actuaries have noted case reserve strengthening starting in 2004 as a result of a change in the claims manager responsible for handling Illinois.

Item#3:

Claims are defined as closed when a closed date is assigned. This definition is consistent throughout the database. Also note that claims are counted on a per defendant basis as requested. Thus, if multiple insureds are named in the same suit, separate claim records are established for each insured. No changes have occurred in this definition in the last 10 years.

Item#4:

The Company writes claims made professional liability policies for physicians and surgeons throughout Illinois. Coverage for professional corporations is offered either as an additional named insured under the physicians limit, or for an additional premium, the physicians may purchase separate limits for the corporation. Tail endorsements are issued either for additional premium as defined by our rating manual or for free if the physician meets certain eligibility criteria. In addition, the Company occasionally writes policies for emergency rooms, surgical centers, and urgent care facilities on a per patient visit basis, per our rating manual. Note the rating manual referenced herein is the one that has been maintained on file with the Division of Insurance.

Item#5:

The Company does not utilize a class system to develop rates. Rather, it develops rates for each individual specialty based on the experience of that particular specialty, credibility weighted with the experience of similar specialties. The Company's base class (specialty) and territory are defined as follows:

Base class (specialty)	Family/General Practitioners – No Surgery (Code 420)
Base territory	Territory 1 – Cook, Madison, and St. Clair Counties

Item#6:

Extended reporting endorsement (ERP) exposures are defined as a single policy within Exhibit 1b (File 1), earned immediately upon issue for unlimited ERPs and earned throughout the year for the 1st and 2nd annual extensions. Because the 3rd annual extension extends the reporting period to an indefinite period, the exposure issued on the 3rd extension is earned immediately similar to the unlimited ERPs. This approach to earning exposures is consistent with statutory accounting principles.

For Exhibit 1ci (File 1), the ERP exposures are earned on the basis of the company's step and tail factors to facilitate comparison with losses arrayed by accident year and development year.

Note the effective date of our extended reporting endorsement policies is the date in which the endorsement was issued, consistent with the General Instructions. For example, if the last claims made policy was issued on 1/1/2007 and subsequently endorsed for extended reporting, the effective date for the tail policy would be 1/1/2008. If a limited extension is issued (e.g. one year) and the policy is subsequently endorsed for an additional year, then the 2nd extension would have an effective date of 1/1/2009.

Item#7:

The following table lists the tail factors at each corresponding maturity year. The first column represents the factor that applies to the expiring claims made premium based on the claims made maturity from the expiring policy. The second column relates the filed tail factors in the first column to a mature claims-made premium.

Maturity Year	Reporting Period Extension Factors (per filing)	Reporting Period Extension Factors (ratio to Mature CM rate)
First Year	4.00	1.00
Second Year	3.88	1.55
Third Year	2.40	1.80
Fourth Year	2.11	1.90
Fifth Year	2.05	1.95
Sixth Year	2.01	1.97
Mature	1.97	1.97

Item#8:

The expenses included in the Expense factor on Exhibit 1cv (File 1) include all company expenses exclusive of loss adjustment expenses, premium taxes, and commissions. The Expense factor is intended to cover company activities including but not limited to underwriting and policy issuance, risk management, marketing, human resources, compliance, corporate management, accounting, actuarial, information systems, attorney fees, internal/external audit services, issuing of actuarial opinions, and facility management.

Item#9:

The “other” factors listed in Exhibit 1cv (File 1) include other expenses provided for in premiums: commissions, DDR, profit load, taxes, and investment income offset. The commissions represent the external agent and broker fees associated with writing insurance policies. DDR stands for death, disability, and retirement and is intended to provide funding for the cost of issuing free extended reporting period (ERP) endorsements based on certain eligibility criteria. The Company’s profit load, in combination with the recognition of investment income earned on reserves, constitutes the provision required for the Company to meet its overall profit objectives.

An additional item that is considered in the ratemaking process is the adjustment for discounts from manual rates. This is shown on Exhibit 1cv (File 1) as “other” and was equal to -22.2% in our last rate filing. We recognize and expect a number of insureds will qualify for discounts such

as claims-free that reduce manual premiums. Also, based on the criteria within our rating manual, insureds may be eligible for schedule rating which further adjusts the manual rate for certain individual risk characteristics.

Note the investment income offset and the “other” factor is recorded in File 1 are actually negative numbers. As there was no guidance for handling negative numbers in the Decimal format, we have included the negative sign immediately in front of the amounts within the field.

Item#10:

Assumptions used in completing File 2 (Exhibit 2A):

- Although the instructions do not state explicitly, the first 15 characters have been used as a key for each record.
- The record layout only allows 2 spaces for Policy Type. However, the instructions indicate that the allowable policy types are CMPA and OERE. For this field we only filled in the first 2 positions with CM and OE.
- Note that only calendar year 2007 activity has been included for premiums, claim counts, paid losses and loss expenses, and incurred losses and expenses. Case reserves and IBNR estimates are shown as recorded on December 31, 2007. It is our understanding that the Division of Insurance recognized the difficulty for companies in populating and reconciling data from prior years and as a result the benefit of Exhibit 2A data will not be realized for some time.
- Due to the restriction of field lengths in Exhibit 2A-Surplus, amounts are shown in thousands of dollars.

Assumptions used in producing File 1 (Exhibit 1):

- Although the instructions do not state explicitly, the first 25 characters have been used as a key for each record.
- The two amount fields on position 90 and 128 for Exhibits 1b and 1ci are shown as DEC (3,3) although not in percentage format. Thus, if an exposure amount was 150.345, the amount would be shown as 150345.

Reconciliation

Loss, allocated loss adjustment expense, and premium amounts included in this filing have been reconciled wherever possible with American Physicians’ statutory page 14 and/or Supplement A to Schedule T on a direct basis. No significant differences were noted.

**Consulting Actuarial Report and
Data Supporting the Company's Rate Filing**

Attached is a copy of our March 1, 2008 rate filing submitted to the Division of Insurance on February 26, 2008. Our internal actuarial department determines the rates based on its own analysis of loss and loss adjustment expenses, expense levels, and necessary profit provisions. Competitor rate and relativity levels as well as information available from ISMIE's latest rate filing are used to supplement American Physicians' own experience. As this filing represents rates that were in effect as of December 31, 2008, we are submitting the actuarial justification used to support our March 1, 2008 rate levels.

Attention: Property & Casualty Section
Gayle Neuman

APA's Filing No.: IL-2008-01
NAIC No.: 33006
Company FEIN: 38-2102867

Dear Ms. Neuman:

Subject: Professional Medical Malpractice Liability
Program: Health Care Providers Professional Liability Program
Type: Rate and Rule Filing
Effective Date: March 1, 2008

This is to advise that American Physicians Assurance Corporation wishes to place on file the below outlined revisions to its Health Care providers Professional Liability Program (HCP-PL). All changes are being disclosed via the updated manual pages and the NAIC transmittal form and this cover letter. The proposed rates with this filing are adequate, not excessive, and not unfairly discriminatory. We are requesting an effective date of March 1, 2008.

The following items are completed and attached:

1. Rate / Rule Review Requirements Checklist
2. NAIC Transmittal Form
3. RF-3 (Duplicate copies attached)
4. Actuarial memorandum
5. Illinois Certification Form for Medical Malpractice rates signed by Kevin Clinton, CEO and Kevin Dyke, Chief Actuary
6. Updated rate / rule manual pages including a final version and a highlighted version noting the changes made since the last major rate / rule filing.
7. Self-addressed stamped envelope to return a copy of the approved filing to my attention.

If you should have any questions, please contact me at 1-800-748-046, extension 6849 or e-mail me at pedgington@apcapital.com. Thank you for your assistance in this matter.

Sincerely,

Patty Edgington

ILLINOIS CERTIFICATION FOR MEDICAL MALPRACTICE RATES

(215 ILCS 5/155.18)(3) states that medical liability rates shall be certified in such filing by an officer of the company and a qualified actuary that the company's rates are based on sound actuarial principles and are not inconsistent with the company's experience.

I, R. Kevin Clinton, a duly authorized officer of American Physicians Assurance Corporation, am authorized to certify on behalf of the Company making this filing that the company's rates are based on sound actuarial principles and are not inconsistent with the company's experience, and that I am knowledgeable of the laws, regulations and bulletins applicable to the policy rates that are the subject of this filing.

I, Kevin M. Dyke, FCAS, MAAA, am authorized to certify on behalf of American Physicians Assurance Corporation, making this filing that the company's rates are based on sound actuarial principles and are not inconsistent with the company's experience, and that I am knowledgeable of the laws, regulations and bulletins applicable to the policy rates that are the subject of this filing.

20.	This filing transmittal is part of Company Tracking #	IL-2008-01
------------	--	------------

21.	Filing Description [This area can be used in lieu of a cover letter or filing memorandum and is free-form text]
------------	--

Rate/Rule Manual Pages have been updated to reflect an overall premium level decrease of -5.3%. See actuarial memorandum for complete details and justification for the changes.

In addition, a minor clarification in the manual pages has been made regarding specialty descriptions. The Specialty Description of "Hospitalist/Intensive Care Medicine" has been deleted as it was a duplicate description for code 283. The code and description applicable for code 283 will be the one description of "Intensive Care Medicine/Hospitalist".

22.	Filing Fees (Filer must provide check # and fee amount if applicable) [If a state requires you to show how you calculated your filing fees, place that calculation below]

Check #:

Amount: To be invoiced

Refer to each state's checklist for additional state specific requirements or instructions on calculating fees.

*****Refer to the each state's checklist for additional state specific requirements (i.e. # of additional copies required, other state specific forms, etc.)**

RATE/RULE FILING SCHEDULE

(This form must be provided ONLY when making a filing that includes rate-related items such as Rate; Rule; Rate & Rule; Reference; Loss Cost; Loss Cost & Rule or Rate, etc.)

(Do not refer to the body of the filing for the component/exhibit listing, unless allowed by state.)

1. This filing transmittal is part of Company Tracking # IL-2008-01

2. This filing corresponds to form filing number
(Company tracking number of form filing, if applicable)

☐ Rate Increase ☒ Rate Decrease ☐ Rate Neutral (0%)

3. Filing Method (Prior Approval, File & Use, Flex Band, etc.) File and Use

4a. Rate Change by Company (As Proposed)

Company Name	Overall % Indicated Change (when applicable)	Overall % Rate Impact	Written premium change for this program	# of policyholders affected for this program	Written premium for this program	Maximum % Change (where required)	Minimum % Change (where required)
American Physicians Assurance Corporation	-5.3%	-5.3%	-2,566,325	1,308	48,421,229	(+)2.3%	(-)44.1%

4b. Rate Change by Company (As Accepted) For State Use Only

Company Name	Overall % Indicated Change (when applicable)	Overall % Rate Impact	Written premium change for this program	# of policyholders affected for this program	Written premium for this program	Maximum % Change	Minimum % Change

5. Overall Rate Information (Complete for Multiple Company Filings only)

		COMPANY USE	STATE USE
5a	Overall percentage rate indication (when applicable)	(-)5.3%	
5b	Overall percentage rate impact for this filing	(-)5.3%	
5c	Effect of Rate Filing – Written premium change for this program	-2,566,325	
5d	Effect of Rate Filing – Number of policyholders affected	1,308	

6.	Overall percentage of last rate revision	-14.0%
7.	Effective Date of last rate revision	3-1-07
8.	Filing Method of Last filing (Prior Approval, File & Use, Flex Band, etc.)	File and Use

9.	Rule # or Page # Submitted for Review	Replacement or withdrawn?	Previous state filing number, if required by state
01	Pages IL-1 through IL-5	<input type="checkbox"/> New <input checked="" type="checkbox"/> Replacement <input type="checkbox"/> Withdrawn	IL-2007-01 (Last major rate revision effective 3-1-07)
02		<input type="checkbox"/> New <input type="checkbox"/> Replacement <input type="checkbox"/> Withdrawn	
03		<input type="checkbox"/> New <input type="checkbox"/> Replacement <input type="checkbox"/> Withdrawn

*Note: Minimum premium for each Facility Policy in Section D., Item 1, 2, 3, and 4 is \$2,500.

American Physicians Assurance Corporation
Health Care Providers Professional Liability Insurance

Illinois

E. Premium Charges for Vicarious, Shared and Separate Limits

Under Countrywide Rule IX., Item D., Premium Charges for Vicarious, Shared and Separate Limits is replaced in its entirety with the following:

Specialty Code	Healthcare Professional	Vicarious Limit Charge	Shared Limit Charge	Separate Limit Charge
411	Chiropractor	0%	35% of class 420	70% of class 420
452	Nurse Anesthetist	0%	7.5% of class 151	15% of class 151
962	Nurse Midwife	0%	25% of class 153	50% of class 153
963	Nurse Practitioner	0%	7.5% of class 420	15% of class 420
942	Perfusionist	0%	7.5% of class 420	15% of class 420
807	Physician Assistant	0%	7.5% of class 420	15% of class 420
943	Podiatrist/incl. surg.	0%	40% of class 143	50% of class 143
944	Podiatrist – no surg.	0%	35% of class 420	70% of class 420
946	Psychologist	0%	5% of class 249	10% of class 249
808	Surgeon Assistant	0%	7.5% of class 420	15% of class 420

F. Higher limits of liability may be purchased at premiums derived by applying the following factors to the \$1,000,000/\$4,000,000 rates:

Higher Limits of Liability	All Other Physicians and Dentists	Emergency Medicine, Radiologists, All Other Surgery (S)	Selected Surgical Specialties (H)
\$2,000,000/\$4,000,000	1.344	1.418	1.460
For higher Limits of Liability – Refer to Company			

G. Limits that are less than these \$1,000,000/\$4,000,000 may be purchased at premiums derived from applying the following decreased limit factors to the \$1,000,000/\$4,000,000 rates (not including any credit applied for a deductible):

Limits of Liability	All Physicians, Surgeons, and Dentists
\$100,000/\$400,000	0.480
\$200,000/\$800,000	0.620
\$250,000/\$1,000,000	0.665
\$300,000/\$1,200,000	0.700
\$500,000/\$2,000,000	0.790
\$750,000/\$3,000,000	0.920
\$1,000,000/\$2,000,000	0.980
\$1,000,000/\$4,000,000	1.000

H. Claims-Made Maturity Factors

Note: If the retroactive date falls on a date other than the anniversary date, a factor will be used that is pro-rating the two applicable maturity factors. These factors are applied to the mature claims-made base rates.

First Year	0.25
Second Year	0.40
Third Year	0.75
Fourth Year	0.90
Fifth Year	0.95
Sixth Year	0.98
Mature	1.00

I. Reporting Period Extension Factors

Claims-made reporting period extension(s) ("tail" coverage) are offered (unless coverage is automatically provided within the terms of the policy) to any insured whose coverage is terminated for any reason.

1. A single extension for an unlimited reporting period may be purchased. One set of limits of liability is provided for the entire unlimited reporting period. The rates for this extension are computed by applying the applicable reporting period extension factor displayed below to the annual expiring premium.
2. Alternatively, three extensions may be purchased as of the policy termination and the next two anniversaries of that termination. Separate limits apply for each of the three extensions. The final extension is an unlimited extension. Premiums for each extension are 33.3% of the rate applicable to the single unlimited extension (1.).

- J. Factors are applied to the claims-made rate applicable to the annual expiring policy at the time the extended reporting endorsement is offered.

First Year	4.00
Second Year	3.88
Third Year	2.40
Fourth Year	2.11
Fifth Year	2.05
Sixth Year	2.01
Mature	1.97

K. Corporate Entity Coverage

Under Countrywide Corporate Entity Coverage Rule, Item B. Organization Coverage Charge – Separate Limits, sub item 3. is replaced with the following:

3.	<table><tr><th># of Insureds</th><th>Charge</th></tr><tr><td>2-5</td><td>15.0%</td></tr><tr><td>6-9</td><td>12.0%</td></tr><tr><td>10-19</td><td>9.0%</td></tr><tr><td>20 or more</td><td>7.0%</td></tr></table>	# of Insureds	Charge	2-5	15.0%	6-9	12.0%	10-19	9.0%	20 or more	7.0%
# of Insureds	Charge										
2-5	15.0%										
6-9	12.0%										
10-19	9.0%										
20 or more	7.0%										

L. Part-Time Rule

Under Countrywide Rule VI. Special Rating Rules, Item A. Part Time is replaced with the following:

- A. Part Time: 60% of the otherwise applicable rate applies to physicians (see eligibility requirements under General Rules) with American Physicians insured exposure averaging 20 hours or less per week. If evidence of insurance is provided for any professional liability exposure insured by any other carrier, that other exposure would be excluded from the American Physicians policy. Other credits may be reduced due to lower premiums with this rating.

XIII. Merit Rating

In order to be eligible for any merit-rating plan, the incurred loss ratio over the last 10 years shall not exceed **135%**. The total credit that may be applied under the Claims-Free Credit Rule is **-15%** and the total credit/debit that may be applied under the Schedule Rating Plan is **+/- 35%**.

A. Claim-Free Credit

See countrywide manual Section X. Merit Rating, Rule A. for the underwriting criteria. Below is the Claim-Free Credit Schedule for use in Illinois:

1. Credit Schedule:

Years of Claims-Free <u>Experience</u>	<u>Credit</u>
Three to Five Years	5%
Six to Seven Years	10%
Eight or More Years	15%

B. Schedule Rating Plan

The premium may be credited or debited based on the total of credits and debits derived from the following "risk characteristics" schedule. The maximum allowable credit/debit for the Schedule Rating Plan is +/- 35%.

	Maximum <u>Credit</u>	<u>Debit</u>
1. Professional Skills, Quality of Care	10%	10%
Use of a recognized system of clinical guidelines. Relevant board certification. Accreditation status by a recognized regulatory body. The provision of medical care limited to qualified individuals. Continuing education of all professional staff beyond what is required by state licensing regulation. Maintenance of premises and equipment.		
2. Patient Rapport	10%	10%
Length of service and reputation in community. Established policies and procedures for patient services. Cooperation with the Company claims management and resolution procedures.		
3. Record Keeping	10%	10%
A well-maintained patient record system in place: thorough documentation of patient care and interaction; follow-up system for diagnostic studies, consultation and appointments.		
4. Risk Characteristics	5%	5%
a. Documented successful completion of an approved office risk analysis/communication skills assessment/risk management on-site visit and/or education program, including an appropriate response to recommendations made.		
b. Documented attendance at an approved risk management seminar, or successful completion of an approved risk management correspondence course.		

XIV. Quarterly Installment Option and Monthly Installment Option

American Physicians offers the following: (does not apply to Claims-Made Reporting Period Extensions ("tail coverage").

4-pay (quarterly)	25% down payment	3 equal installments (Due 4 th , 7 th , and 10 th months).
9-pay (monthly)	15% down payment	8 equal installments (Due 2 nd , 3 rd , 4 th , 5 th , 6 th , 7 th , 8 th , and 9 th months).

- A \$10 installment fee will be applied to all payment plans/per installment. No interest will be charged.

XV. Deductibles

See Countrywide Manual, Section V. for underwriting criteria.

Item C. from the Deductible section in the Countrywide Manual is deleted and replaced with the following: Deductible factors are applied to the \$1,000,000/\$4,000,000 base rate, Section IV, Rating Steps, Item D to derive the deductible credit amount.

Deductible Amount Per Incident	Indemnity Only Factor	Indemnity and Defense Factor
\$5,000	.01	.03
\$10,000	.03	.05
\$15,000	.04	.08
\$25,000	.07	.12
\$30,000	.08	.13
\$50,000	.12	.19
\$75,000	.16	.25
\$100,000	.19	.30
\$200,000	.27	.43

XVI. Risk Management Activities Discounts

See Section XIII. Merit Rating, Rule B., Schedule Rating Plan, sub item 4 – Risk Characteristics on page IL-9 for the Underwriting Criteria.

XVII. Consent to Rate

Under Countrywide Rules, Rule XI. Consent to Rate is deleted in its entirety.

American Physicians Assurance Corporation
Health Care Providers Professional Liability Insurance

Illinois

XII. RATES, STATE RULES EXCEPTIONS--Illino FINAL DRAFT VERSION

A. Illinois Rating Territories

Territory Code	Territory Description	Territory Factor
1	Cook, Madison and St. Clair Counties	1.000
2	Jackson, Vermilion and Will Counties	0.890
3	DuPage, Kane, Lake, McHenry and Winnebago Counties	0.800
4	Champaign, Macon and Sangamon Counties	0.630
5	Bureau, Coles, DeKalb, Kankakee, LaSalle, Ogle and Randolph Counties	0.720
6	Remainder of State	0.530
7	Peoria County	0.470

B. Mature Claims-Made Rates - Countrywide Manual Section II. General Rules, Rule A. Rates – is amended to read: Premiums are calculated by using the mature claims-made base rates, as shown below with limits of \$1,000,000/\$4,000,000 and by applying applicable claims-made maturity factors or other coverage option factors.

*Note: Minimum premium for each Facility Policy in Section D., Item 1, 2, 3, and 4 is \$2,500.

American Physicians Assurance Corporation
Health Care Providers Professional Liability Insurance

Illinois

E. Premium Charges for Vicarious, Shared and Separate Limits

Under Countrywide Rule IX., Item D., Premium Charges for Vicarious, Shared and Separate Limits is replaced in its entirety with the following:

Specialty Code	Healthcare Professional	Vicarious Limit Charge	Shared Limit Charge	Separate Limit Charge
411	Chiropractor	0%	35% of class 420	70% of class 420
452	Nurse Anesthetist	0%	7.5% of class 151	15% of class 151
962	Nurse Midwife	0%	25% of class 153	50% of class 153
963	Nurse Practitioner	0%	7.5% of class 420	15% of class 420
942	Perfusionist	0%	7.5% of class 420	15% of class 420
807	Physician Assistant	0%	7.5% of class 420	15% of class 420
943	Podiatrist/incl. surg.	0%	40% of class 143	50% of class 143
944	Podiatrist – no surg.	0%	35% of class 420	70% of class 420
946	Psychologist	0%	5% of class 249	10% of class 249
808	Surgeon Assistant	0%	7.5% of class 420	15% of class 420

F. Higher limits of liability may be purchased at premiums derived by applying the following factors to the \$1,000,000/\$4,000,000 rates:

Higher Limits of Liability	All Other Physicians and Dentists	Emergency Medicine, Radiologists, All Other Surgery (S)	Selected Surgical Specialties (H)
\$2,000,000/\$4,000,000	1.344	1.418	1.460
For higher Limits of Liability – Refer to Company			

G. Limits that are less than these \$1,000,000/\$4,000,000 may be purchased at premiums derived from applying the following decreased limit factors to the \$1,000,000/\$4,000,000 rates (not including any credit applied for a deductible):

Limits of Liability	All Physicians, Surgeons, and Dentists
\$100,000/\$400,000	0.480
\$200,000/\$800,000	0.620
\$250,000/\$1,000,000	0.665
\$300,000/\$1,200,000	0.700
\$500,000/\$2,000,000	0.790
\$750,000/\$3,000,000	0.920
\$1,000,000/\$2,000,000	0.980
\$1,000,000/\$4,000,000	1.000

H. Claims-Made Maturity Factors

Note: If the retroactive date falls on a date other than the anniversary date, a factor will be used that is pro-rating the two applicable maturity factors. These factors are applied to the mature claims-made base rates.

First Year	0.25
Second Year	0.40
Third Year	0.75
Fourth Year	0.90
Fifth Year	0.95
Sixth Year	0.98
Mature	1.00

I. Reporting Period Extension Factors

Claims-made reporting period extension(s) ("tail" coverage) are offered (unless coverage is automatically provided within the terms of the policy) to any insured whose coverage is terminated for any reason.

1. A single extension for an unlimited reporting period may be purchased. One set of limits of liability is provided for the entire unlimited reporting period. The rates for this extension are computed by applying the applicable reporting period extension factor displayed below to the annual expiring premium.
2. Alternatively, three extensions may be purchased as of the policy termination and the next two anniversaries of that termination. Separate limits apply for each of the three extensions. The final extension is an unlimited extension. Premiums for each extension are 33.3% of the rate applicable to the single unlimited extension (1.).

- J. Factors are applied to the claims-made rate applicable to the annual expiring policy at the time the extended reporting endorsement is offered.

First Year	4.00
Second Year	3.88
Third Year	2.40
Fourth Year	2.11
Fifth Year	2.05
Sixth Year	2.01
Mature	1.97

K. Corporate Entity Coverage

Under Countrywide Corporate Entity Coverage Rule, Item B. Organization Coverage Charge – Separate Limits, sub item 3. is replaced with the following:

3.	<table><tr><th><u># of Insureds</u></th><th><u>Charge</u></th></tr><tr><td>2-5</td><td>15.0%</td></tr><tr><td>6-9</td><td>12.0%</td></tr><tr><td>10-19</td><td>9.0%</td></tr><tr><td>20 or more</td><td>7.0%</td></tr></table>	<u># of Insureds</u>	<u>Charge</u>	2-5	15.0%	6-9	12.0%	10-19	9.0%	20 or more	7.0%
<u># of Insureds</u>	<u>Charge</u>										
2-5	15.0%										
6-9	12.0%										
10-19	9.0%										
20 or more	7.0%										

L. Part-Time Rule

Under Countrywide Rule VI. Special Rating Rules, Item A. Part Time is replaced with the following:

- A. Part Time: 60% of the otherwise applicable rate applies to physicians (see eligibility requirements under General Rules) with American Physicians insured exposure averaging 20 hours or less per week. If evidence of insurance is provided for any professional liability exposure insured by any other carrier, that other exposure would be excluded from the American Physicians policy. Other credits may be reduced due to lower premiums with this rating.

XIII. Merit Rating

In order to be eligible for any merit-rating plan, the incurred loss ratio over the last 10 years shall not exceed **135%**. The total credit that may be applied under the Claims-Free Credit Rule is **-15%** and the total credit/debit that may be applied under the Schedule Rating Plan is **+/- 35%**.

A. Claim-Free Credit

See countrywide manual Section X. Merit Rating, Rule A. for the underwriting criteria. Below is the Claim-Free Credit Schedule for use in Illinois:

1. Credit Schedule:

<u>Years of Claims-Free Experience</u>	<u>Credit</u>
Three to Five Years	5%
Six to Seven Years	10%
Eight or More Years	15%

B. Schedule Rating Plan

The premium may be credited or debited based on the total of credits and debits derived from the following "risk characteristics" schedule. The maximum allowable credit/debit for the Schedule Rating Plan is +/- 35%.

	Maximum Credit	Debit
1. Professional Skills, Quality of Care	10%	10%
Use of a recognized system of clinical guidelines. Relevant board certification. Accreditation status by a recognized regulatory body. The provision of medical care limited to qualified individuals. Continuing education of all professional staff beyond what is required by state licensing regulation. Maintenance of premises and equipment.		
2. Patient Rapport	10%	10%
Length of service and reputation in community. Established policies and procedures for patient services. Cooperation with the Company claims management and resolution procedures.		
3. Record Keeping	10%	10%
A well-maintained patient record system in place: thorough documentation of patient care and interaction; follow-up system for diagnostic studies, consultation and appointments.		
4. Risk Characteristics	5%	5%
a. Documented successful completion of an approved office risk analysis/communication skills assessment/risk management on-site visit and/or education program, including an appropriate response to recommendations made.		
b. Documented attendance at an approved risk management seminar, or successful completion of an approved risk management correspondence course.		

American Physicians Assurance Corporation
Health Care Providers Professional Liability Insurance

Illinois

XIV. Quarterly Installment Option and Monthly Installment Option

American Physicians offers the following: (does not apply to Claims-Made Reporting Period Extensions ("tail coverage")).

4-pay (quarterly)	25% down payment	3 equal installments (Due 4 th , 7 th , and 10 th months).
9-pay (monthly)	15% down payment	8 equal installments (Due 2 nd , 3 rd , 4 th , 5 th , 6 th , 7 th , 8 th , and 9 th months).

- A \$10 installment fee will be applied to all payment plans/per installment. No interest will be charged.

XV. Deductibles

See Countrywide Manual, Section V. for underwriting criteria.

Item C. from the Deductible section in the Countrywide Manual is deleted and replaced with the following: Deductible factors are applied to the \$1,000,000/\$4,000,000 base rate, Section IV, Rating Steps, Item D to derive the deductible credit amount.

Deductible Amount Per Incident	Indemnity Only Factor	Indemnity and Defense Factor
\$5,000	.01	.03
\$10,000	.03	.05
\$15,000	.04	.08
\$25,000	.07	.12
\$30,000	.08	.13
\$50,000	.12	.19
\$75,000	.16	.25
\$100,000	.19	.30
\$200,000	.27	.43

XVI. Risk Management Activities Discounts

See Section XIII. Merit Rating, Rule B., Schedule Rating Plan, sub item 4 – Risk Characteristics on page IL-9 for the Underwriting Criteria.

XVII. Consent to Rate

Under Countrywide Rules, Rule XI. Consent to Rate is deleted in its entirety.

Illinois Administrative Code Link	Administrative Regulations Online	
Product Coding Matrix Link	Product Coding Matrix	
NAIC Uniform Transmittal Form Link	50 IL Adm. Code 929 NAIC Uniform Transmittal Form	If insurers wish to use the NAIC Uniform Transmittal form in lieu of a cover letter/explanatory memorandum, the Division will accept such form, as long as all information required in the "Cover Letter & Explanatory Memorandum" section below are properly included.
Self-Certification form Link	Newsletter Article regarding Division's Participation Self-Certification form	If an authorized company officer completes the Self-Certification form, and submits such form as the 1 st page of the filing, the Division will expedite review of the filing ahead of all other filings received to date. The Division will track company compliance with the laws, regulations, bulletins, and this checklist and report such information to the NAIC.
Location of Standard within Filing Column	See checklist format below.	To expedite review of your filing, use this column to indicate location of the standard within the filing (e.g. page #, section title, etc.)
Description of Law, Regulation, Bulletin, or Requirement in Checklist Column	See checklist format below.	These brief summaries do not include all requirements of all laws, regulations, bulletins, or requirements, so review actual law, regulation, bulletin, or requirement for details to ensure that forms are fully compliant before filing with the Division of Insurance.

FILING REQUIREMENTS FOR FORM FILINGS	REFERENCE	DESCRIPTION OF REVIEW STANDARD REQUIREMENT	LOCATION OF STANDARD WITHIN FILING
See separate form filing checklist.		To assist insurers in submitting compliant medical liability rate/rule filings as a result of newly-passed PA94-677 (SB475), the Division has created this separate, comprehensive rate/rule filing checklist for medical liability filings. Please see the separate form filing checklist for requirements related to medical liability forms.	N/A – This is a rate/rule filing.
GENERAL FILING REQUIREMENTS FOR ALL RATE/RULE FILINGS			
LINE OF AUTHORITY			
Must have proper Class and Clause authority to conduct this line of business in Illinois.	<u>215 ILCS 5/4</u> <u>List of Classes/Clauses</u>	To write Medical Liability insurance in Illinois, companies must be licensed to write: 1. Class 2, Clause (c)	APA Certificate of Authority grants class 2, clause c authority, COA#967543-51
RATES AND RULES REQUIRED TO BE FILED			
Rates must be filed separately from forms.			
Insurers shall make separate filings for rate/rules and for forms/endorsements, etc.		The laws and regulations for medical liability forms/endorsements and the laws for medical liability rates/rules are different and each must be reviewed according to its own set of laws/regulations/procedures. Therefore, insurers are required to file forms and rates/rules separately. For requirements regarding form filings, see separate form filing checklist.	This is a rate filing effective 3-1-08.
New Insurers			
New insurers must file their rates, rules, plans for gathering statistics, etc. upon commencement of business.	<u>215 ILCS 5/155.18</u> <u>50 IL Adm. Code 929</u>	"New Insures" are insurers who are: <ul style="list-style-type: none">• New to Illinois.• New writers of medical liability insurance in Illinois.• Writing a new Line of Insurance listed on Page 1 of this checklist, New insurers must file the following:	Not applicable with this filing. We are not a new insurer.

		<p>a) Medical liability insurance rate manual, including all rates.</p> <p>b) Rules, including underwriting rule manuals which contain rules for applying rates or rating plans,</p> <p>c) Classifications and other such schedules used in writing medical liability insurance.</p> <p>d) Statement regarding whether the insurer:</p> <ul style="list-style-type: none"> • Has its own plan for the gathering of medical liability statistics; or • Reports its medical liability statistics to a statistical agent (and if so, which agent). <p>The Director, at any time, may request a copy of the insurer's statistical plan or request the insurer to provide written verification of membership and reporting status from the insurer's reported statistical agency.</p> <p>Insurers are instructed to review all requirements in this checklist, including the requirements for applicable actuarial documentation, as well as all medical liability laws and regulations, to ensure that the filing contains all essential elements before submitting the filing to the Division.</p>	
Requirements to Initial Rate/Rule Filings			
After a new insurer has filed the rates/rules/information described above, insurers must file rates/rules, or advise of changes to statistical plans, as often as they are amended.	<p><u>215 ILCS 5/155.18</u></p> <p><u>50 IL Adm. Code 929</u></p>	<p>After a new insurer has filed the rates/rules/information described above, insurers must file rates/rules/rating schedules (as described above for new business) as often as such filings are changed or amended, or when any new rates or rules are added.</p> <p>Any change in premium to the company's insureds as a result of a change in the company's base rates or a change in its increased limits factors shall constitute a change in rates and shall require a filing with the Director.</p> <p>Insurers shall also advise the Director if its plans for the gathering of statistics has changed, or if the insurer has changed statistical agents.</p> <p>The Director, at any time, may request a copy of the insurer's statistical plan or request the insurer to provide written verification of membership and reporting status from the insurer's reported statistical agency.</p> <p>Insurers are instructed to review all requirements in this checklist, including the requirements for applicable actuarial documentation, as well as all medical liability laws and regulations, to ensure that the filing contains all essential elements before submitting the filing to the Division.</p>	Rate/rule manual pages have been updated and actuarial documentation is attached.
Requirements for Renewal Filings			
Illinois is "file and use"	<u>215 ILCS 5/155.18</u>	A rate/rating plan/rule filing shall go into effect no	Filing is being mailed

for medical liability rates and rules.	<u>50 IL Adm. Code 929</u>	earlier than the date the filing is received by the Division of Insurance, Property & Casualty Compliance Section, except as otherwise provided in Section 155.18.	certified mail on 2-26-08 to be effective 3-1-08.
ADOPTIONS OF ADVISORY ORGANIZATION FILINGS			
Insurer must file all rates and rules on its own behalf.	<u>50 IL Adm. Code 929</u>	Although Rule 929 allows for insurers to adopt advisory organization rule filings, advisory organizations no longer file rules in Illinois.	We are filing on our own behalf.
COPIES, RETURN ENVELOPES, ETC.			
Requirement for duplicate copies and return envelope with adequate postage.	<u>50 IL Adm. Code 929</u>	Insurers that desire a stamped returned copy of the filing or submission letter must submit a duplicate copy of the filing/letter, along with a return envelope large enough and containing enough postage to accommodate the return filing.	Duplicate copy of filing in addition to return envelope with adequate postage is attached.
COVER LETTER & EXPLANATORY MEMORANDUM			
Two copies of a submission letter are required, and the submission letter must contain the information specified. "Me too" filings are not allowed. Use of NAIC Uniform Transmittal form is acceptable as long as all required information is included.	<u>215 ILCS 5/155.18</u> <u>50 IL Adm. Code 929</u> <u>Company Bulletin 88-53</u> <u>Actuarial Certification Form</u> <u>NAIC Uniform Transmittal Form</u>	<p>All filings must be accompanied by a submission letter which includes <u>all</u> of the following information:</p> <ol style="list-style-type: none"> 1) Exact name of the company making the filing. 2) Federal Employer Identification Number (FEIN) of the company making the filing. 3) Unique filing identification number – may be alpha, numeric, or both. Each filing number must be unique within a company and may not be repeated on subsequent filings. If filing subsequent revisions to a pending filing, use the same filing number as the pending filing or the revision(s) will be considered a new filing. 4) Identification of the classes of medical liability insurance to which the filing applies (for identifying classes, refer to Lines of Insurance shown on Page 1 of this checklist, in compliance with the NAIC Product Coding Matrix). 5) Notification of whether the filing is new or supersedes a present filing. If filing supersedes a present filing, insurer must identify <u>all</u> changes in superseding filings, <u>and all</u> superseded filings, including the following information: <ul style="list-style-type: none"> • Copy of the complete rate/rule manual section(s) being changed by the filing with all changes clearly highlighted or otherwise identified. • Written statement that all changes made to the superseded filing have been disclosed. • List of all pages that are being completely superseded or replaced with new pages. • List of pages that are being withdrawn and not 	<p>Submission letter attached with all items including the NAIC transmittal document.</p> <p>Included in submission letter and NAIC transmittal form.</p> <p>Included in submission letter and NAIC transmittal form.</p> <p>Included in cover letter and NAIC transmittal form.</p> <p>Included in NAIC transmittal form.</p> <p>Included in cover letter and NAIC transmittal form.</p>

		<p>being replaced.</p> <ul style="list-style-type: none"> List of new pages that are being added to the superseded filing. Copies of all manual pages that are affected by the new filing, including but not limited to subsequent pages that are amended solely by receiving new page numbers. <p>6) Effective date of use.</p> <p>7) Actuarial certification (see Actuarial Certification section below). Insurers may use their own form or may use the sample form developed by the Division.</p> <p>8) Statement that the insurer, in offering, administering, or applying the filed rate/rule manual and/or any amended provisions, does not unfairly discriminate.</p> <p>Companies under the same ownership or general management are required to make <u>separate, individual company filings</u>. Company Group ("Me too") filings are unacceptable.</p> <p>If insurers wish to use the NAIC Uniform Transmittal form in lieu of a cover letter/explanatory memorandum, the Division will accept such form, as long as all information required in this section is properly included.</p>	<p>Included in cover letter and NAIC transmittal form. The signed actuarial certification form is attached.</p> <p>Included in cover letter and NAIC transmittal form.</p> <p>Not applicable with this filing.</p>
Form RF-3 Summary Sheet			
For any rate change, duplicate copies of Form RF-3 must be filed, no later than the effective date.	<p>50 IL Adm. Code 929</p> <p>Form RF-3 Summary Sheet</p>	<p>For <u>any</u> rate level change, insurers must file two copies of Form RF-3 (Summary Sheet) which provides information on changes in rate level based on the company's premium volume, rating system, and distribution of business with respect to the classes of medical liability insurance to which the rate revision applies. Such forms must be received by the Division's Property & Casualty Compliance Section no later than the stated effective date of use.</p> <p>Insurers must report the rate change level and premium volume amounts on the "Other" Line and insert the words "Medical Liability" on the "Other" descriptive line. Do not list the information on the "Other Liability" line.</p> <p>If the Medical Liability premium is combined with any other Lines of Business (e.g. CGL, commercial property, etc.), the insurer must report the effect of rate changes to each line separately on the RF-3, indicating the premium written and percent of rate change for each line of business.</p> <p>The RF-3 form must indicate whether the information is "exact" or "estimated."</p>	<p>Duplicate copies of RF-3 are attached.</p> <p>Completed – See the RF-3.</p> <p>This is not applicable.</p> <p>RF-3 indicates "estimated".</p>
PAYMENT PLANS			

Quarterly premium payment installment plan required as prescribed by the Director.	<u>215 ILCS 5/155.18</u>	<p>A company writing medical liability insurance in Illinois shall offer to each of its medical liability insureds the option to make premium payments in quarterly installments as prescribed by and filed with the Director. Such option must be offered in the initial offer of the policy or in the first policy renewal occurring after January 1, 2006. Thereafter, the insurer need not offer the option, but if the insured requests it, must make it available. Such plans are subject to the following minimum requirements:</p> <ul style="list-style-type: none"> • May not require more than 40% of the estimated total premium to be paid as the initial payment; • Must spread the remaining premium equally among the 2nd, 3rd, and 4th installments, with the maximum set at 30% of the estimated total premium, and due 3, 6, and 9 months from policy inception, respectively; • May not apply interest charges; • May include an installment charge or fee of no more than the lesser of 1% of the total premium or \$25; • Must spread any additional premium resulting from changes to the policy equally over the remaining installments, if any. If there are no remaining installments, the additional premium may be billed immediately as a separate transaction; and • May, but is not required to offer payment plan for extensions of a reporting period, or to insureds whose annual premiums are less than \$500. However, if offered to either, the plan must be made available to all within that group. 	We comply with these requirements.
Deductible plans should be filed if offered.	<u>215 ILCS 5/155.18</u>	A company writing medical liability insurance in Illinois is encouraged, but not required, to offer the opportunity for participation in a plan offering deductibles to its medical liability insureds. Any such plan shall be contained in a filed rate/rule manual section entitled "Deductibles Offered" or substantially similar title. If an insurer uses a substantially similar title, the Rate/Rule Submission Letter or NAIC Uniform Transmittal form must indicate the name of the section that applies.	See item XV titled Deductibles offered on page IL-10.
Premium discount for risk management activities should be filed if offered.	<u>215 ILCS 5/155.18</u>	A company writing medical liability insurance in Illinois is encouraged, but not required, to offer their medical liability insureds a plan providing premium discounts for participation in risk management activities. Any such plan shall be contained in a filed rate/rule manual section entitled "Risk Management Activities Discounts" or substantially similar title. If an insurer uses a substantially similar title, the	See item XVI titled Risk Management Activities Discounts on page IL-10.

		Rate/Rule Submission Letter or NAIC Uniform Transmittal form must indicate the name of the section that applies.	
CLAIMS MADE REQUIREMENTS			
Extended reporting period (tail coverage) requirements.	<p>215 ILCS 5/143(2)</p> <p><u>Company Bulletin 88-50</u></p>	<p>When issuing claims-made medical liability insurance policies, insurers must include the following specific information in their rate/rule manuals:</p> <ul style="list-style-type: none"> • Offer of an extended reporting period (tail coverage) of <u>at least</u> 12 months. The rate/rule manual must specify whether the extended reporting period is unlimited or indicate its term (i.e. number of years).*** • Cost of the extended reporting period, which <u>must</u> be priced as a factor of one of the following:*** <ul style="list-style-type: none"> ○ the last 12 months' premium. ○ the premium in effect at policy issuance. ○ the expiring annual premium. • List of any credits, discounts, etc. that will be added or removed when determining the final extended reporting period premium. • Insurer will inform the insured of the extended reporting period premium at the time the last policy is purchased. The insurer may not wait until the insured requests to purchase the extended reporting period coverage to tell the insured what the premium will be or how the premium would be calculated. • Insurer will offer the extended reporting period when the policy is terminated for any reason, including non-payment of premium, and whether the policy is terminated at the company's or insured's request. • Insurer will allow the insured 30 days after the policy is terminated to purchase the extended reporting period coverage.*** • Insurer will trigger the claims made coverage when notice of claim is received and recorded by the insured or company, whichever comes first. <p>***If the medical liability coverage is combined with other professional or general liability coverages, the medical liability insurer must meet all of the above requirements, except those indicated with ***, in which case, the insurer must:</p> <ul style="list-style-type: none"> • Offer free 5-year extended reporting period (tail coverage) or 	<p>See Item I, Reporting Period Extension Rules on page IL-7.</p> <p>See Item I, Reporting Period Extension Rules and Item J. Reporting Period Extension Factors on page IL-7.</p> <p>We comply with this rule.</p> <p>See Item I Reporting Period Extension rules and Item J Reporting Period Extension Factors on page IL-7.</p> <p>See Item I. Reporting Period Extension Rules and Item J, Reporting Period Extension Factors on page IL-7.</p> <p>See Item I, Reporting Period Extension Rules, Page IL-7.</p> <p>This is not applicable in this area so disregard.</p> <p>We do not include general liability or other professional coverages so this is not applicable with our company.</p>

		<ul style="list-style-type: none"> • Offer an unlimited extended reporting period with the limits reinstated (100% of aggregate expiring limits for the duration) • Cap the premium at 200% of the annual premium of the expiring policy; and • Give the insured a free-60 day period after the end of the policy to request the coverage. 	
GROUP MEDICAL LIABILITY			
Group medical liability insurance is not specifically allowed under the Illinois Insurance Code.	<u>50 IL Adm. Code 906</u>	Part 906 of the Illinois Administrative Code prohibits writing of group casualty (liability) insurance unless specifically authorized by statute. The Illinois Insurance Code does not specifically authorize the writing of group medical liability insurance.	We are abiding by this rule.
CANCELLATION & NONRENEWAL PROVISIONS REQUIREMENTS			
If rate/rule manuals contain language pertaining to cancellation or nonrenewal, must comply with all cancellation/nonrenewal laws.	See Medical Liability Forms Checklist for Specific Information about Illinois Cancellation & Nonrenewal Laws and Regulations,	If a rate or rule manual contains language pertaining to cancellation or nonrenewal of any medical liability insurance coverage, such provisions must comply with all cancellation and nonrenewal provisions of the Illinois Insurance Code, including but not limited to the following: 143.10, 143.16, 143.16a, 143.17a. See Medical Liability Forms Checklist for Specific Information about Illinois Cancellation & Nonrenewal Laws and Regulations,	No rate or rule in the manual contains language pertaining to cancellation or non-renewal.
ACTUARIAL REVIEW REQUIREMENTS			
Rates shall not be excessive, inadequate, or unfairly discriminatory.	<u>215 ILCS 5/155.18</u>	<p>In the making or use of rates pertaining to all classes of medical liability insurance, rates shall not be excessive, or inadequate, nor shall they be unfairly discriminatory.</p> <p>Rate and rule manual provisions should be defined and explained in a manner that allows the Division to ascertain whether the provision could be applied in an unfairly discriminatory manner. For example, if a rate/rule manual contains ranges of premiums or discounts, the provision must specify the criteria to determine the specific premium/discount an insured or applicant would receive.</p> <p>The Director may, by order, adjust a rate or take any other appropriate action at the conclusion of a public hearing.</p>	Rates being proposed with this filing are adequate, not excessive, and not unfairly discriminatory.
FINANCIAL			

Insurers shall consider certain information when developing medical liability rates.	<u>215 ILCS 5/155.18</u>	<p>Consideration shall be given, to the extent applicable, to past and prospective loss experience within and outside this State, to a reasonable margin for underwriting profit and contingencies, to past and prospective expenses both countrywide and those especially applicable to Illinois, and to all other factors, including judgment factors, deemed relevant within and outside Illinois.</p> <p>Consideration may also be given in the making and use of rates to dividends, savings or unabsorbed premium deposits allowed or returned by companies to their policyholders, members or subscribers.</p> <p>The systems of expense provisions included in the rates for use by any company or group of companies may differ from those of other companies or groups of companies to reflect the operating methods of any such company or group with respect to any kind of insurance, or with respect to any subdivision or combination thereof.</p>	<p>Our own experience is shown in Exhibits 2 through Exhibit 4.</p> <p>We also relied on ISMIE's specialty and territorial relativities in Exhibit 7a, 8a and Exhibit 9.</p> <p>Our expense assumptions are shown in Exhibit 5a, 5b, 5c, 5d and 5e.</p>
Minimum Premiums			
Insurers may group or classify risks for establishing rates and minimum premiums.	<u>215 ILCS 5/155.18</u>	Risks may be grouped by classifications for the establishment of rates and minimum premiums.	Not applicable with this filing.
Rated Risks			
Individual Risk Rating			
Risks may be rated on an individual basis as long as all provisions required in Section 155.18 are met.	<u>215 ILCS 5/155.18</u>	Classification rates may be modified to produce rates for individual risks in accordance with rating plans which establish standards for measuring variations in hazards or expense provisions, or both. Such standards may measure any difference among risks that have a probable effect upon losses or expenses. Such classifications or modifications of classifications of risks may be established based upon size, expense, management, individual experience, location or dispersion of hazard, or any other reasonable considerations, and shall apply to all risks under the same or substantially the same circumstances or conditions. The rate for an established classification should be related generally to the anticipated loss and expense factors or the class.	Not applicable with this filing.
Risks May Be Grouped			
Risks may be grouped by classifications.	<u>215 ILCS 5/155.18</u>	Risks may be grouped by classifications for the establishment of rates and minimum premiums.	Exhibit 7b shows specialty groupings used in this filing.
Rating decisions based solely on domestic violence.	<u>215 ILCS 5/155.22b</u>	No insurer may that issues a property and casualty policy may use the fact that an applicant or insured incurred bodily injury as a result of a battery committed against him/her by a spouse or person in the same household as a sole reason for a rating decision.	Not applicable with this filing. Domestic violence considerations are not part of our rating plan.

Unfair methods of competition or unfair or deceptive acts or practices defined.	<u>215 ILCS 5/424(3)</u>	It is an unfair method of competition or unfair and deceptive act or practice if a company makes or permits any unfair discrimination between individuals or risks of the same class or of essentially the same hazard and expense element because of the race, color, religion, or national origin of such insurance risks or applicants.	Not applicable with this filing. Our rating plan does not unfairly discriminate as defined by statute.
Procedure as to unfair methods of competition or unfair or deceptive acts or practices not defined.	<u>215 ILCS 5/429</u>	Outlines the procedures the Director follows when he has reason to believe that a company is engaging in unfair methods of competition or unfair or deceptive acts or practices.	Not applicable.
Territorial Definitions			
Rate/rule manuals must contain correct and adequate definitions of Illinois territories.	<u>215 ILCS 5/155.18</u>	When an insurer's rate/rule program includes differing territories within the State of Illinois, rate/rule manuals must contain correct and adequate definitions of those territories, and that all references to the territories or definitions are accurate, so the Division does not need to request additional information.	Page IL-1 of the Illinois exception manual.
ACTUARIAL SUPPORT INFORMATION REQUIRED			
ACTUARIAL CERTIFICATION			
Actuarial certification must accompany all rate filings and all rule filings that affect rates.	<u>215 ILCS 5/155.18</u> <u>50 IL Adm. Code 929</u> <u>Actuarial Certification Form</u>	Every rate and/or rating rule filing must include a certification by an officer of the company and a qualified actuary that the company's rates and/or rules are based on sound actuarial principles and are not inconsistent with the company's experience. Insurers may use their own form or may use the sample form created by the Division.	Included with this filing.
ACTUARIAL OR STATISTICAL INFORMATION			
Director may request actuarial and statistical information.	<u>215 ILCS 5/155.18</u> <u>50 IL Adm. Code 929</u>	The Director may require the filing of statistical data and any other pertinent information necessary to determine the manner of promulgation and the acceptability or unacceptability of a filing for rules, minimum premiums, rates, forms or any combination thereof. If the Director requests information or statistical data to determine the manner the insurer used to set the filed rates and/or to determine the reasonableness of those rates, as well as the manner of promulgation and the acceptability or unacceptability of a filing for rules, minimum premiums, or any combination thereof, the insurer shall provide such data or information within 14 calendar days of the Director's request.	Not applicable with this filing.
ACTUARIAL EXPLANATORY MEMORANDUM			
Insurers shall include actuarial explanatory	<u>215 ILCS 5/155.18</u>	Insurers shall include actuarial explanatory memorandum with any rate filing, as well as any	Actuarial Memorandum

memorandum with any rate filing, as well as any rule filing that affects the ultimate premium.	<u>50 IL Adm. Code 929</u>	rule filing that affects the ultimate premium. The explanatory memorandum shall contain, at minimum, the following information: <ul style="list-style-type: none"> • Explanation of ratemaking methodologies. • Explanations of specific changes included in the filing. • Narrative that will assist in understanding the filing. 	included.
Summary of Effects Exhibit			
Insurers shall include an exhibit illustrating the effect of each change and calculation indicating how the final effect was derived.	<u>215 ILCS 5/155.18</u> <u>50 IL Adm. Code 929</u>	Insurers shall include an exhibit illustrating the effect of each individual change being made in the filing (e.g. territorial base rates, classification factor changes, number of exposures affected by each change being made, etc.), and include a supporting calculation indicating how the final effect was derived.	Exhibit 1.
Actuarial Indicators			
Insurers shall include actuarial support justifying the overall changes being made.	<u>215 ILCS 5/155.18</u> <u>50 IL Adm. Code 929</u>	Insurers shall include actuarial support justifying the overall changes being made, including but not limited to: <ul style="list-style-type: none"> • Pure premiums (if used). • Earned premiums. • Incurred losses. • Loss development factors. • Trend factors. • On-Level factors. • Permissible loss ratios, etc. 	Exhibit 2 through 6b.
Loss Development Factors and Analysis			
Insurers shall include support for loss development factors and analysis.	<u>215 ILCS 5/155.18</u> <u>50 IL Adm. Code 929</u>	Insurers shall include actuarial support for loss development factors and analysis, including but not limited to loss triangles and selected factors, as well as support for the selected factors.	Exhibit 3b-1 through 3c-1.
Ultimate Loss Selections			
Insurers shall include support for ultimate loss selections.	<u>215 ILCS 5/155.18</u> <u>50 IL Adm. Code 929</u>	Insurers shall include support for ultimate loss selections, including an explanation of selected losses if results from various methods differ significantly.	Exhibit 3a and footnotes plus actuarial memorandum.
Trend Factors and Analysis			
Insurers shall include support for trend factors and analysis.	<u>215 ILCS 5/155.18</u> <u>50 IL Adm. Code 929</u>	Insurers shall include support for trend factors and analysis, including loss and premium trend exhibits demonstrating the basis for the selections used.	Exhibit 4.
On-Level Factors and Analysis			
Insurers shall include support for on-level factors and analysis.	<u>215 ILCS 5/155.18</u> <u>50 IL Adm. Code 929</u>	Insurers shall include support for on-level factors and analysis, including exhibits providing on-level factors and past rate changes included in calculations.	Exhibit 10.
Rate Filing			

Expenses			
Insurers shall include support for loss adjustment expenses.	215 ILCS 5/155.18 50 IL Adm. Code 929	Insurers shall include support for loss adjustment expenses, including exhibits providing documentation to support factors used for ALAE and ULAE. If ALAE is included in loss development analysis, no additional ALAE exhibit is required.	ALAE included in development Exhibit 3b through 3c. ULAE shown in Exhibit 5c.
Expense Exhibit			
Insurers shall include an expense exhibit. Insurers may use expense provisions that differ from those of other companies or groups of companies.	215 ILCS 5/155.18 50 IL Adm. Code 929	Insurers shall include an exhibit indicating all expenses used in the calculation of the permissible loss ratio, including explanations and support for selections. The systems of expense provisions included in the rates for use by any company or group of companies may differ from those of other companies or groups of companies to reflect the operating methods of any such company or group with respect to any kind of insurance, or with respect to any subdivision or combination thereof.	Exhibit 5c and 5d.
Investment Income Calculation			
Insurers shall include an exhibit for investment income calculation.	215 ILCS 5/155.18 50 IL Adm. Code 929	Insurers shall include an exhibit demonstrating the calculation for the investment income factor used in the indication.	Exhibit 6a and 6b.
Profit and Contingencies Calculation			
Insurers shall include an exhibit for profit and contingencies load.	215 ILCS 5/155.18 50 IL Adm. Code 929	Insurers shall include an exhibit illustrating the derivation of any profit and contingencies load.	Exhibit 5e.
Credibility Standard Used			
Insurers shall include the number of claims being used to calculate the credibility factor.	215 ILCS 5/155.18 50 IL Adm. Code 929	Insurers should include the number of claims being used to calculate the credibility factor. If another method of calculating credibility is utilized, insurers should include a description of the method used.	$Z = P / (P + K)$ as indicated in actuarial memorandum.
Other Actuarial Information Required			
Insurers must include the information described in this section.	215 ILCS 5/155.18 50 IL Adm. Code 929	Insurers shall also include the following information: <ul style="list-style-type: none"> All actuarial support/justification for all rates being changed, including but not limited to changes in: <ul style="list-style-type: none"> Base rates; Territory definitions; Territory factor changes; Classification factor changes; Classification definition changes; Changes to schedule credits/debits, etc. Exhibits containing current and proposed rates/factors for all rates and classification factors, etc. being changed. 	Exhibits 7a, 8a and 9.

		<ul style="list-style-type: none"> Any exhibits necessary to support the filing that are not mentioned elsewhere in this checklist. 	
Schedule Rating			
Insurers must include the described information described at right.	<u>215 ILCS 5/155.18</u> <u>50 IL Adm. Code</u> <u>929</u>	Insurers should include appropriate actuarial justification when filing schedule rating plans and/or changes to schedule rating plans.	Not applicable

American Physicians Assurance Corporation

Medical Professional Liability – Illinois

Actuarial Memorandum

With this filing, the American Physicians Assurance Corporation (American Physicians) revises its medical professional liability specialty rates and territorial relativities resulting in an overall premium level decrease of (-) 5.3%. The requested effective date for all these changes is March 1, 2008.

Rate Change by Component

The rate changes by component are shown in Exhibit 1. The base rate for Family/General Practitioners – No Surgery is decreasing by (-)7.0%. Changes are also being proposed for individual specialty and territory relativities. Finally, we expect a reduction in our average deviation from manual rates which we discuss in greater length below. Exhibits 7a, 8a and 9 show the indicated experience by specialty and territory respectively.

Statewide Rate Level Indication

We analyzed the historical claims-made indemnity loss and allocated loss adjustment experience for our physicians and surgeons program as of September 30, 2007. Indemnity losses were capped to \$1,000,000 per claim due to the limited credibility of experience above \$1,000,000. As of September 30, 2007, less than 2.9% of our Illinois policies are at \$2,000,000 per claim. Exhibit 2 shows our compiled claims made experience capped at \$1M for the 1999-2006 report year period. Premiums limited to \$1M were converted to current manual rate level (rates that became effective March 1, 2007) and current underwriting discounts. Incurred losses including ALAE were projected to ultimate using paid development, reported development, counts times averages, Bornhutter-Ferguson and Berquest-Sherman methods. These methods are generally accepted actuarial methods of projecting losses and ALAE to ultimate. A summary of all the methods can be seen on

Exhibit 3a. The triangles and historical development factors can be seen on Exhibits 3b and 3c. The projected loss ratio was trended by a factor of +3.5%. We based our selection of this trend factor by fitting exponential trend lines to the projected ultimate loss plus ALAE ratios over the four year period 2002-2005, the five year period 2001-2005, the six year period 2000-2005 and the seven year period 1999-2005 (Exhibit 4).

This adjusted, trended and projected loss ratio was compared with our target loss ratio to calculate the indicated premium level change. The target loss ratio was based on American Physicians' budgeted expense and profit load of 35.4% (as detailed on Exhibit 5a), which was offset for expected investment income to produce a target loss plus LAE ratio of 77.5%, for the overall book of business. Historical expense ratios are shown in Exhibit 5b and 5c. American Physicians' payout pattern for claims made in Illinois is included on Exhibits 6a and 6b. We have assumed an investment return of 4.0% per year in this analysis.

Specialty Changes

For each specialty group, we analyzed the experience historical claims-made indemnity loss and allocated loss adjustment experience for our physicians and surgeons program as of September 30, 2007 for the 8 year period 1999 through 2006. Indemnity losses were capped at \$1,000,000 per claim to limit the effect of any single claim on the indicated relativities. Allocated loss adjustment expense (ALAE) were not capped or prorated based on the capping procedure for indemnity. Premiums limited to \$1 M were converted to current manual rate level (rates that became effective March 1, 2007) and discounted for the projected underwriting discounts. Incurred losses capped to \$1M plus ALAE were projected to ultimate using supplemental case reserve factors derived from the overall state analysis. The resulting loss ratios by specialty were trended to the projected cost level for policies to be written 3/1/08 to 2/28/09.

For each specialty group, the resulting loss ratios was compared with our target loss ratio to calculate the indicated premium level change which is labeled as "Indicated Raw Rate Change" column 3 on Exhibit 7a. The weighted rate (i.e. group rate) in column 4 is the

exposure weighted average of all the specialty rates within its group. For those cases where the total exposure for a specialty group is zero, a straight average is used. These calculations are depicted in greater detail in Exhibit 7b.

The current relativity is multiplied by $(1 + \text{Indicated Specialty Rate Change}) / (1 + \text{Indicated Specialty Rate Change for Family/General Practice-420})$ to calculate the “Indicated Raw Spec Wgtd. Rel. to 420” column 6 on Exhibit 7a.

The raw credibility shown on column 8 uses the following credibility formula:

$$\text{Credibility} = P / (P + K)$$

Where,

P = Manual Earned Premium at Current Rate Level

K = \$20,000,000

The indicated relativities shown on column 12 are based on the three-way credibility of the current relativity (column 5), APA’s relativity indication (column 6) and ISMIE relativities (column 7). The selected specialty group relativity changes in column 15 are brought forward to exhibit 8a, column 10.

A similar procedure as the one outlined above that does not use three-way credibility and shown in Exhibit 8a is carried out at an individual specialty level. Exhibit 8a, column 10 shows the selected relativities derived in Exhibit 7a, column 15 and their derivation was described above. The proposed specialty relativities shown in column 15 are selected based on the current relativity (column 5), indicated relativity (column 8), selected specialty group relativity (column 11) and the competitor relativities (columns 12 through 14).

The base rate (Family/General Practice No Surgery, Specialty 420) change under the proposed territory 1 shown in Exhibit 8a represents a decrease of -7.0% over the current territory 1 average rate. The change in specialty relativities is -3.9%. The estimated impact

of base rate and specialty relativity changes is -10.7%. Exhibit 8b illustrates the combined effect for each specialty.

Territorial Changes

We currently are using seven territorial rating areas in Illinois. With this filing we are revising the territory relativities.

For each proposed territory, we analyzed the experience historical claims-made indemnity loss and allocated loss adjustment experience for our physicians and surgeons program as of September 30, 2007 for the 8 year period 1999 through 2006. Indemnity losses were capped at \$1,000,000 per claim to limit the effect of any single claim on the indicated relativities. Allocated loss adjustment expense (ALAE) were not capped or prorated based on the capping procedure for indemnity. Premiums limited to \$1 M were converted to current manual rate level (rates that became effective March 1, 2007) and discounted for the projected underwriting discounts. Incurred losses capped to \$1M plus ALAE were projected to ultimate using supplemental case reserve factors derived from the overall state analysis. The resulting loss ratios by proposed territory were trended to the projected cost level for policies to be written 3/1/08 to 2/28/09.

For each proposed territory, the resulting loss ratios was compared with our target loss ratio to calculate the indicated premium level change which is labeled as “Indicated Raw Territory Rate Change” column 4 on Exhibit 9. The current relativity is multiplied by $(1 + \text{Indicated Territory Rate Change}) / (1 + \text{Indicated Territory 1 Rate Change})$ to calculate the “Indicated Raw Relativity to Territory 1 shown in Exhibit 9, Column 6.

The raw credibility shown on column 8 uses the following credibility formula:

$$\text{Credibility} = P / (P + K)$$

Where,

P = Manual Earned Premium at Current Rate Level

K = \$20,000,000

The indicated relativities shown on column 12 are based on the three-way credibility of the current relativity (column 5), APA's relativity indication (column 6) and ISMIE relativities (column 7). The final territorial relativity selection is shown in Exhibit 9, Column 14. The estimated impact of this change is +0.2%.

Change in Schedule Rating (Budgeted)

Our company regularly monitors the deviation from manual rates and incorporates this information into the rate analysis to determine the overall rate need. The deviation from manual rates includes the effects of the loss free credit (up to 15%) and schedule rating (up to +/-35%). Due to increased competition this average deviation has increased from -8.8% in 2004 to -22.1% in 2007. Manual rates are intended to apply to the average risk, with schedule rating available to deviate up or down based on certain risk characteristics. With this filing we are taking a step toward bringing our schedule credits more in line with that philosophy. Therefore manual rates were decreased by more than the indicated rate change of (-)5.3%. The difference between the manual rate change of (-)10.3% and the overall rate change of (-)5.3% reflects our expectation that the average deviation from manual rates will be reduced from roughly -22.1% to -17.6%. The anticipated reduction in credits will have a +5.8% impact on our overall rate level. We will continue to monitor the use of schedule credits to ensure the deviation is consistent with the anticipated change.

Submitted respectfully by,

Kevin M. Dyke, FCAS, MAAA

Profit Provision

Exhibit 5e

A	Premium to Surplus Ratio	0.8
B	After tax investment income (% of surplus)	9.80%
C	Tax rate on underwriting income	35.0%
D	After tax return on equity	15.0%
E	Pre-tax underwriting profit provision	10.0%

Note:

The underwriting profit provision is the result of a number of assumptions regarding prevailing interest rates, underwriting leverage (premium/surplus), underwriting expenses, the percentage of unearned premium and surplus available to support underwriting operations, and federal income taxes on underwriting and investment income. The proposed profit provision was derived assuming an after-tax 15% return on equity and the return model and assumptions shown above.
